

Future of Biomedical Science: Dark Clouds or Blue Skies ?

The 5th EPBS Conference Day will be held in Genova, Italy,
on 12th October 2019
Final program will be available soon on www.epbs.net

Save the Date

Dear EPBS Member,

Your new Management Body met at the EPBS headquarters in Brussels, Belgium, on 16th November 2018. The agreed road map was reviewed, and an action plan developed. We were delighted to receive applications for the role of Student Facilitator and are happy to announce that Stine Andrea Røkkum Holsbrekken from Norway will be co-opted until the next GGB.

EPBS is celebrating its 20th anniversary in 2019. The scientific committee prepared the basis of an outstanding conference program with a challenging theme 'Future of Biomedical Science: Dark Clouds or Blue Skies'. We will examine the influences on our development; technological, educational and political and return to the Darwinian concepts of survival of the fittest. What have been, and what will be the game changers. The programme will be published for you on our website soon.

To prevent diary conflicts with our hosts and to link our conference with our 20th anniversary celebration the conference will be held on Saturday 12th October 2019 followed by the gala dinner. The Conference will be preceded by our GGB on the Thursday and Friday. Therefore we will meet as expected in Genova from 10th to 12th October 2019.

Thrilled by this program? Just share it and save the date!
